2013

CITY OF WEST ALLIS

WISCONSIN

As Adopted by the Common Council

November 20, 2012

To Common Council:

The 2013 Budget for the City of West Allis as adopted herein has been prepared in accordance with Chapter 65.90 of the Wisconsin Statutes and Chapter I, Section 1.04 of the West Allis Municipal Code. The adopted budget presents the total budget for the City, including expenditures, revenues, staff authorizations, fund balances, debt analyses, tax levy, and tax rate.

General Fund revenues received by the City other than property taxes are adopted at \$22,786,618 for 2013, down \$195,776 from 2012, or .85% less. The 2013 revenue includes increases in several elements, including building/plumbing/electrical permits, interest earnings, and Water Utility tax equivalent payment. Decreases include state transportation/highway aids, court fines/costs, parking violations, and reserves applied. Total revenues (including Special Revenue, Enterprise, Debt, Capital, and Internal Service funds) are adopted at \$118,745,077 for 2013, up \$1,198,542 from 2012, or 1.02%.

The General Fund spending needed to operate the City is adopted at \$56,097,947 for 2013, up \$493,150 from 2012, or .89%. This increase is primarily due to employee wage increases. Staff authorizations for 2013 are adopted at approximately 519, up approximately 5 FTE's from what was authorized in 2012, which includes the rebudgeting of three (3) fire fighter positions. Total expenditures (including Special Revenue, Enterprise, Debt, Capital, and Internal Service funds) are adopted at \$119,559,864 for 2013, up \$1,341,084 from 2012, or 1.13%.

The 2012 operating property tax levy (that part of the total City property tax levy that is subject to State levy limits) for use in 2013 is \$35,167,329, down from \$35,278,403, a decrease of \$111,074 or .31%. The City operating tax levy for 2013 includes three tax levy elements: General Fund, Health Insurance Fund, and Parking Utility. (Two tax levies, for Debt and Tax Increment Financing, are not included in this amount.) The total property tax levy for the City, including all five tax levy components, is \$40,010,190, up from \$39,788,733, an increase of \$221,457, or .56%.

The City tax rate is adopted at an increase from \$9.75 per \$1,000 of assessed valuation to \$9.80 per \$1,000 of assessed valuation, an increase of \$.05 per \$1,000, or .51%. In 2012(2013), Assessed Valuation, including TIF value, is estimated to be increasing by \$4,453,500 from \$4,079,339,700 to \$4,083,973,400, an increase of \$4,663,700, or approximately .11%.

Below is listed a table showing the 2011(2012) City of West Allis tax rate, the 2012(2013) City of West Allis tax rate, the cost increase per \$1,000 in assessed valuation, and the cost increase for an example on a \$150,000 property (for City purposes only).

Taxing Unit	2011(12) Tax Rate	2012(13) Tax Rate	Cost Inc./(Dec.)	Based on property of \$150,000

## 2013 MAYOR'S RECOMMENDED BUDGET SUMMARY HIGHLIGHTS

### PROCESS

The City budget process for 2013 began on June 1, 2012. Budget guidelines were provided to all departments, divisions, and offices. Preparation of employee staffing and salary information was completed in mid-late July. Detail expenditure budgeting was completed in mid-late August. Among all the guidelines provided, the most important requirement was that initial budget submittals were to be no more than the 2012 budget. Most departments met this requirement. In cases where the guidelines were exceeded, explanations were discussed.

Initial review of departmental original budget expenditure requests were reviewed by the Mayor and CAO in September. Limited follow up discussions were conducted to work toward the spending and tax levy limits that apply in 2013. An effort was made to increase existing revenues and identify new revenues.

During the budget meetings with all departments, six (6) questions were asked in order to develop ideas, options, and consider all relevant factors. The following six (6) questions were asked:

1. How was the 2013 budget goal/requirement met in the initial budget submission if it was, in fact, met? If not, why not? What could be done further to meet the goal/requirement?
2. Are there any new revenue opportunities?
3. Were there any staffing changes?
4. What is the service effect or impact of the budget that was submitted?
5. If something else had to be cut, what would be recommended?
6. Since there is talk these days about less or limited government, are there any services that your department provides that could be considered "unnecessary," or "extra," or go beyond the basic threshold of providing core municipal services?

Many options identified during this above-described process for both revenues and expenditures were considered.

From these efforts, some revenue and expenditure considerations were available for use. The general principles applied in arriving at the final decisions in the 2013 Mayor's Recommended Budget were several. An overall balance of all things considered was applied. Some of the main points were as follows:

1. Each department's needs were individually analyzed.
2. Zero amount of increase was based on that analysis.
3. The effect and impact on services was carefully scrutinized.
4. Implementation of new, innovative ideas.

With the above process being used, decisions were made with regard to revenues and expenditures for the 2013 Mayor's Recommended budget. The following three sections of this report itemize the details of the main elements of both revenues and expenditures that frame the parameters of the document.

Internal Service (Liability & Health Insurance)	Health insurance costs decrease of 4.5%.	Insufficient health insurance revenue. (Use of Fund Balance again in 2013 for fifth straight year.)

One additional financial element that was used to stay within the State levy limit in the 2013 budget was the retention of the transfer of almost \$300,000 from three (3) departments' capital equipment replacement accounts into the Capital Accumulation Holding Account. These funds would remain budgeted for 2013 but NOT SPENT in 2013. This "savings" would offset a \$300,000 revenue item (Reserves Applied), which would not actually be used. The non-spending of the Capital Accumulation Holding Account and the non-receipt of the Reserves Applied both offset each other and therefore have no financial effect on the 2013 budget bottom line. If additional revenue is realized in 2013, further

adjustments to this transfer can be evaluated and implemented during 2013. (This is the third year that this method has been used, but in 2013, the amounts had been reduced by 50%.)

The three departments and the amounts transferred are as follows:

1. Purchasing/Central Services Division [\$62,500 – 50% of \$125,000 for radio/communication (\$37.5K) and phone systems (\$25K)].
2. Fire Dept. (\$50,000 – 25% of \$200,000 for fire vehicle replacement); \$150,000 remains funded.
3. Public Works Dept. (\$182,500 – 20.8% of \$878,600 for fleet vehicle replacement); top priority vehicles remain funded.

An analysis of the effect of using this financing technique has been evaluated and determined to be reasonable in light of the fact that it is only a temporary delay, particularly when compared to the possible use of other more extreme financial decisions in addressing the 2013 budget challenges.

### SUMMARY

Overall, non-tax levy general fund revenues decreased by \$195,776 or .85%. \$300,000 of City Reserves (not to be actually used) and \$600,000 from the General Fund (to be used) are included in 2013 revenue. (Without the use of these two amounts, the 2013 tax levy and rate would be approximately .8% higher for the \$300,000 and approximately 1.6% higher for the \$600,000. In other words, the tax levy increase would have been 3.1% in 2013 rather than the .7% that it will be (a total of 2.4% higher). The general fund expenditures increased \$543,150 or approximately .98%. Staffing levels for authorized positions increased by 6 FTE's to approximately 520, three (3) of which were the rebudgeting of fire fighter positions.

The City's State Expenditure Restraint Program (ERP) limit is approximately 1.7% for 2013 (City at .98%); the State Tax Levy limit is estimated to be .1% for 2013 based on net new construction (City at .2% decrease). In addition to the net new construction levy limit, the Recommended Budget includes the use of approximately \$323,100 of debt issued after July 1, 2005. This added .85% to the total levy, for a net increase of slightly less than .7%. (Total eligible amount of debt issued after July 1, 2005 that could have been used is approximately \$3,773,000.)

The 2013 Recommended Budget package of the overall revenue increase and the overall expenditure increase resulted in a General Fund operating levy decrease of approximately \$111,074 or .31% (General, Health Insurance, and Parking). The tax levy for the Debt Fund is \$3,773,100, up \$323,100 or 9.37%. The TIF levy is \$1,069,761, up \$9,431 or .89%. The overall City levy of \$40,010,190 is up \$221,457 or .56%. The assessed value for the City (including TIF value) is increasing by approximately \$4,663,700 (.11%). The municipal only tax rate for the City is increasing from \$9.75 to \$9.80, or \$.05 per \$1,000 of assessed valuation, or .51%.

\* State Levy Limit legislation, which began in 2005, has treated Debt Fund expenditures differently than all other expenditures for purposes of calculating the levy limit. The ability to levy taxes sufficient to repay the City's debt obligations serves as a guarantee to bondholders and thereby reduces the risk of their investment. This allows the municipality to pay a lower interest rate when borrowing funds. In order to retain this guarantee, the legislation allowed debt expenditures to be excluded from the levy limit. All other expenditures fall under the levy limit.

For 2013, the levy limit legislation allows for the city to increase its tax levy by an amount equal to "net new construction" as determined by the State Department of Revenue, plus any amount necessary to pay for Debt Fund expenditures. The City's net new construction for the 2013 levy calculation was 0.08%. This allows for a levy increase of \$30,983 (\$38,728,403 x .0008 = \$30,983), plus any amount necessary to pay for Debt Fund expenditures. Total Debt fund expenditures are \$3,773,100. According to the levy limit legislation, the City could increase its tax levy by this full \$3.7 million and remain compliant with the legislation. For 2013, the City will use \$323,100 of this levy capacity for debt fund expenditures.
