

	Location	Type of Work	Summary of Work
	<b>I-94 and I-41/894</b>  <b>Bridge over Hank Aaron</b>	Roadway, Bridge, and Ramp  Reconstruction, Earth Work,	In 2018, the Zoo Interchange project consists of reconstruction of the I-94 and I-41/894 roadways. Traffic impacts include long-term closures of system ramps in the Zoo Interchange, and long-term closures of numerous service ramps at the National Avenue, Lincoln Avenue and Greenfield Avenue interchanges.  <b>Comments</b>

Updated 7/12/2018 3:15 PM

Long-term closures of system and service ramps may cause increases in traffic volumes on detour and alternate routes, including 84th Street, WIS 100, National Avenue, and Greenfield Avenue. Traffic signal timings are adjusted to account for the additional traffic. Zoo Interchange project construction on local roadways has been completed with the exception of Fairview Avenue, Curtis Road, Schlinger Avenue, and 100th Street.

Various lanes of National Avenue will be closed from 99<sup>th</sup> Street to 102<sup>nd</sup> Street for Bridge Resurfacing Work. This is expected to continue for numerous weeks. At minimum, one lane in each direction will be open at all times.

S. 100<sup>th</sup> Street will be reconstructed between Walker Street and the Hank Aaron State Trail, as well as Schlinger Avenue, between 100<sup>th</sup> Street and 98<sup>th</sup> Street. Beginning July 16<sup>th</sup>, 100<sup>th</sup> Street will be paved from Walker Street to the Hank Aaron State Trail. Residents have been informed of this closure. This work should be done by the end of July 2018.

In addition, 98<sup>th</sup> Street will be closed at Schlinger Avenue. Residents on 98<sup>th</sup> Street will need to access 98<sup>th</sup> Street from the south. This work is expected to be complete by late August 2018.

The Hwy 100 Bridges over the Hank Aaron State Trail project close a lane NB and SB on Hwy 100 from I-94 to the Colder's Driveway as part of the project's long-term staging. This lane closure will remain in place through late Summer 2018. Northbound traffic is expected to see delays in the morning rush hour and southbound traffic is expected to see delays in the evening rush hour. The right turn lane from eastbound I-94 to southbound Hwy 100 will be closed until late Summer 2018.
