State of Wisconsin Project – P1829S	Location	Type of Work	Summary of Work	
	West National Avenue S. 70th St. to S. 76th St.	Underground Utility Construction and Roadway Reconstruction	<p>The work under this Contract consists of the reconstruction of both W. National Ave. as a varying width, new concrete pavement, on a dense graded base of crushed stone or crushed concrete; with pedestrian facilities, bicycle facilities, traffic calming features, decorative street lights, concrete sidewalk, concrete driveway approaches, tree planting, landscaping, storm sewer, storm sewer relay, sanitary sewer, sanitary sewer relay, water main, water main relay, building services, utility adjustments and various incidental items.</p>	
			Comments	
		<p>National Avenue is open. Signal light at street lights are functional.</p> <p>The landscaping and decorative work will commence in Spring 2019 when weather allows. A pedestrian route is accessible through the length of the job, but not all sidewalk will be poured until Spring.</p> <p>The timing of the beacon at the Fire Station continues to be tweaked to make it work correctly.</p> <p>The City will be working with the DOT to insure that the construction has the smallest possible impact on the quality of the life of residents and businesses in the area.</p>

2017 No. 7	Location	Type of Work	Summary of Work
	Various Locations where the City of West Allis has previously replaced the utility-owned portion of the service line	Replacement of Private Lead Service Lines	<p>The work under this contract is generally described as the replacement of private Lead Service Lines (LSL) at locations where the City of West Allis has previously replaced the utility-owned portion of the service line with one inch diameter copper pipe. The replacement of the privately-owned portion of the LSL shall be from the curb stop to the interior water meter. Work may include, but is not limited to, the procurement of plumbing permits, scheduling the installation with the property owner, traffic control, erosion control, pavement saw cutting, excavation, installation of a new copper service line utilizing trenchless technology (City approval is required for open cut installation), abandonment of the LSL, reconnection to the interior water distribution piping, and backfilling the excavations. The Contractor shall coordinate with the City of West Allis Water Utility for water meter replacement. Restoration of concrete sidewalk and driveway will also be performed by the Contractor along with any other incidental items necessary to complete the work.</p> <p>The City reserves the right to increase or reduce the number of installations of LSL replacements based on the available grant funds remaining.</p>
			Comments
			<p>Three sidewalk slabs will be repaired on S. 56th Street. One sidewalk slab on S. 78th Street will need to be repaired. Some landscaping work also will be done.</p>

			Comments
			<p>Residents will be notified by the contractor before their properties are scheduled. No Parking signs (7am to 5pm) will be placed by City personnel prior to work. Once the work is completed, No Parking signs will be removed by the City.</p> <p>If sidewalk has to be removed, it will be replaced with compacted gravel. In Spring 2019, the contractor will pour new concrete sidewalk.</p>

2018 No. 8	Location	Type of Work	Summary of Work
	<p>S. 124th Street West Oklahoma Avenue to West Lincoln Avenue</p>	<p>Road Reconstruction</p>	<p>The work under this Contract consists of the reconstruction of a 34 foot wide, 6" Hot Mix Asphalt pavement, on an 8" dense graded base of crushed stone with driveway approaches, landscaping, storm sewer, water main alteration, hydrant relocations and pavement marking.</p>
Comments			

Due to the significant and ongoing delays with the utilities under the road, the section from Cleveland to Lincoln will not be reconstructed until Spring 2019. The entire road from Lincoln to Oklahoma is open to traffic. Mailboxes have been reset to most residents. Temporary mailboxes on Seymour will be removed until Spring.

[L:\Web Site Files\Web Site Original Word Documents\124th Street Winter Stop.pdf](#)

The first layers of asphalt have been placed from Oklahoma to Cleveland. Ramps have been constructed around manholes and at driveways. These will be milled and the final layer of asphalt will be placed in Spring 2019.

This is a joint project with the City of New Berlin.
