## APPENDIX A

### REVIEW OF RESULTS FROM THE 1981 HISTORIC SURVEY & PLANNING STUDY

The results of the 1981 Historic Survey & Planning Study by Johnson, Johnson & Roy were reviewed to determine what, if any, of the previously recommended properties remain eligible for the National Register of Historic Places. Two historic districts, as well as twenty-three individual properties, were identified as potentially eligible. Each of the recommended properties are listed below, along with a current recommendation and/or update information.

- 1) **The Pioneer Commercial District**  
7930- 8130 W. National Avenue

Upon re-review, it was determined that the subject district no longer retains the integrity that it exhibited in 1981. Please note that four of the eighteen total structures were re-surveyed for this document, while photo updates were done for the remainder, if warranted. One of the properties in the previously identified Pioneer Commercial Historic District, the LeRose Realty Company Building located at 8004-8010 W. National Avenue, was considered for individual eligibility (See Recommendations Chapter).

- 2) **Greenfield Residential Historic District**  
1500 block of S. 80<sup>th</sup> Street

Like the aforementioned district, the Greenfield Residential Historic District no longer retains the integrity necessary for Register listing. However, of the twenty-five homes, six were re-surveyed for this document and one property, the Alexander H. McMicken Residence located at 1508 S. 80<sup>th</sup> Street, was considered for individual eligibility (See Recommendations Chapter).

The following three previously recommended properties have since been listed in the National Register of Historic Places:

- 1) 7440 W. Greenfield Avenue  
U.S. Post Office (1943)  
Listed on 23 February 2001
- 2) 8405 W. National Avenue  
Greenfield School (1887)  
Listed on 29 March 2006

- 3) 1647 S. 76<sup>th</sup> Street  
Wadhams/Seneca Service Station (1927)  
Listed on 11 August 2004

Of the remaining twenty properties that were recommended as potentially eligible, four are no longer extant. They include the following:

- 1) West Burnham & 82<sup>nd</sup> Streets  
West Allis Depot (1925)
- 2) 8321 W. Greenfield Avenue  
Rosenthal Corn Husker Co. (1900-01)
- 3) 1127 S. 70<sup>th</sup> Street  
Allis-Chalmers Clubhouse (1905)
- 4) S. 84<sup>th</sup> & Lapham streets  
Milwaukee Light, Heat and Traction Co. (1891)

Of the remaining sixteen properties, only one retains enough historic integrity to be reconsidered as potentially eligible for the National Register.

- 1) 7101 W. Orchard Street  
Holy Assumption Catholic Church (1924-25)

Of the remaining fifteen properties, one property—Wisconsin State Fair Park—still retains a number of surveyable elements within the park, but as a whole, the park is not considered to be potentially eligible. However, a single building, the Pabst Beer Garden Building (1948), is considered to be individually potentially eligible (See Recommendations Chapter). Please note that the buildings at State Fair Park are not under the jurisdiction of the City of West Allis or the West Allis Historical Commission. A recommendation is included for the State Fair property only because it was previously surveyed in 1981; however, no photo is included in this report.

Therefore, the following fourteen properties do not retain enough historic integrity, or no longer meet the criteria necessary for Register listing. They are as follows:

- 1) 6014 W. Beloit Road  
Joseph Juneau Residence (circa 1875)
- 2) 5301 W. Lincoln Avenue/aka W. Hayes  
John Lendrum Mitchell Residence/“Meadowmere” (1885)

- 3) 6014 W. Lincoln Avenue  
Peter Juneau Residence (circa 1845)
- 4) 6501 W. National Avenue  
West Allis Municipal Market (1931)
- 5) 6801 W. National Avenue  
Kearney & Trecker Co. (1901)  
\*Please note that all previously compiled information for this property was recorded incorrectly. The address should be 6771 W. National Avenue and the date of construction is somewhere between 1910 and 1927 per Sanborn Fire Insurance Maps. Also per Sanborn information, the large building was originally constructed by the Gerlinger Electrical Steel Casting Company, not Kearney & Trecker. Note however, that the complex of buildings was purchased by Kearney & Trecker and utilized by the firm as Plant #2, by no later than 1932.
- 6) 12101 W. Oklahoma Avenue  
Cooper Farmhouse (circa 1844)
- 7) 2855 S. Waukesha Road  
Baron von Cotzhausen Residence/“Tall Oaks” (circa 1875)
- 8) 1126 S. 70<sup>th</sup> Street  
Allis-Chalmers Company (1905)
- 9) 1510 S. 71<sup>st</sup> Street  
James Radcliffe Residence (1905)
- 10) 1467 S. 75<sup>th</sup> Street  
August Petrie Residence (1917)
- 11) 1500 S. 75<sup>th</sup> Street  
West Allis (Carnegie) Library (1914)
- 12) 1600 S. 81<sup>st</sup> Street  
St. Peter’s Episcopal Church (1894)
- 13) 2103 S. 81<sup>st</sup> Street  
Methodist Episcopal Church (1888)
- 14) S. 84<sup>th</sup> Street, south of National Avenue  
Honey Creek Cemetery (1849)

### PREVIOUSLY SURVEYED PROPERTIES

Prior to beginning the 2006-2007 survey, there were 277 previously surveyed properties within the City of West Allis that were recorded in the Wisconsin Architecture & History Inventory (Available for public viewing online at [www.wisconsinhistory.org/ahi](http://www.wisconsinhistory.org/ahi)). As part of this survey, all 277 structures needed to be re-reviewed to verify the information that was previously recorded. In addition, a number of other structures were inventoried in the past and their cards are on physical file at the WHS; however, they were never entered into the database. If those photographs could be reconciled with extant structures, they are included below. As a result, the following list of “designations” was developed.

**In Current Survey** = This property retained enough integrity to be included in the present survey. This designation was given to 137 resources.

**No Longer Extant (NLE)** = This structure, which was standing in 1981, was no longer standing in 2006-2007. This designation was given to twenty-nine resources.

**No Initial Integrity** = This property had little or no integrity in 1981 and should not have been surveyed. In addition, these structures have changed in appearance since that time. This designation was given to eight resources.

**No Initial Integrity/No Change** = This property had little or no integrity in 1981 and still look the same today. This designation was given to fifty-six resources.

**Update Photo Only** = These structures retained enough integrity for survey in 1981; however, since that time, their exterior appearance has changed, thereby requiring the preparation of an update survey card. Note that the number following this designation identifies the new photo code. This designation was given to fifty resources.

Note that an additional three properties, which were on file at the WHS, could not be reconciled by the address assigned at that time.

## APPENDIX B

### SURVEY INVENTORY

The following is a complete list of the 1,019 inventoried resources for this project. The AHI designation, as well as the map code refers to the number assigned to the property per the Wisconsin Historical Society's database and mapping system. The construction date listed is from either actual permit records or from assessor's information. All resources discussed in the Recommendations Chapter are identified in this list by their historic name. As well, an attempt was made to identify as many of the commercial buildings by historic name as possible. Please note that in most cases, the historic name came off of the "Owner" line on the building permit. Historic names were found for more structures than are identified as such below, however, all historic names found are included in the WHS database, which is accessible to the public via [www.wisconsinhistory.org/ahi](http://www.wisconsinhistory.org/ahi). As well, and except for the resources in the Mitchell Manor Residential Historic District, all historic names are listed in the individual district lists in the Appendices to follow. The three properties that are listed in the National Register are identified in the list to follow as all capital letters and bolded. All bolded, but lower case resource names, identify those individual structures that are discussed in the Recommendations Chapter; however, those resources located within the seven historic districts are not bolded. Like the rest of the survey document, addresses are listed alphabetically by named streets first, with numbered streets to follow.

**APPENDIX I**

**MITCHELL MANOR RESIDENTIAL HISTORIC DISTRICT**  
 ( 257 Properties)

As cited in the discussion in the Recommendations Chapter, due to the significant size of this district, time did not allow for the review of all associated permits. However, a select few were reviewed for ownership and/or architect information. All historic names that follow the style of the home either reference the name on the “Owner” line of the permit; in many cases, the owner and the contractor for the home was a known local builder and the designation of o/c refers to owner and contractor.

## APPENDIX K

### THE NATIONAL REGISTER CRITERIA

**Criteria:** The quality of *significance* in American history, architecture, archeology, engineering, and culture is present in districts, sites, buildings, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and:

- A. That are associated with events that have made a significant contribution to the broad patterns of our history; or
- B. That are associated with the lives of persons significant in our past; or
- C. That embody the distinctive characteristics of a type, period, or method of construction or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or
- D. That have yielded, or may likely to yield, information important in prehistory or history.

**Criteria Considerations:** Ordinarily, cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories:

- A. A religious property deriving primary significance from architectural or artistic distinction or historical importance; or
- B. A building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or
- C. A birthplace or grave of a historic figure of outstanding importance if there is no other appropriate site or building directly associated with his or her productive life; or
- D. A cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events; or
- E. A reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived; or
- F. A property primarily commemorative in intent if design, age, tradition, or symbolic value has invested in with its own historical significance; or
- G. A property achieving significance within the past 50 years if it is of exceptional importance.
